This interactive session will cover:

- How to determine the most suitable business entity for your goals. A guide to choosing the right business structure, meeting legal requirements, and avoiding costly mistakes.
- The necessary licenses and permits to operate legally, when to file, and the associated fees.
- Where and from whom to get reliable answers when starting your business.
- The right questions to ask before launching your venture.
- How to create a clear, effective business plan to guide your growth.
- Strategies for marketing your new business effectively.
- How to identify legitimate grants and funding sources, avoid misleading offers, and navigate the application process.
